

Rather than designing a new system from the ground up, the \$2, Dell ATG--our review unit configuration cost \$3, is a beefed-up version of the popular Latitude D laptop, adding a new outer case, a shock-mounted hard drive, and other heavy-duty extras, which tack about \$1, onto the price of a similar. The Dell Latitude ATG D laptop is now certified for semi-rugged use, so you can rough it up without having to think twice about it.
